

PROVIDING YOU FREE WIRELESS SERVICE FOR THE GREAT LAKES BAY REGIONAL EXPO

SpeedNet is proud to be The Wireless Internet Provider for the **Great Lakes Bay Regional Expo**.

SpeedNet will provide complimentary High Speed Internet to exhibitors that currently have wireless internet cards for their laptops or wireless PDA units. If you don't have a wireless internet card, they can be purchased for approximately \$40 at local computer and office supply stores.

SpeedNet is the largest licensed high speed wireless internet provider in Michigan with customers from Rogers City to Flint and Mt. Pleasant to Harbor Beach. SpeedNet offers speeds of up to 3.0 Mbs of download and up to 384 Kbs of upload speeds. This is up to 100 times faster than most dial up services. Mobile service is available, allowing you to take your broadband connection wherever you go in the coverage area. SpeedNet also offers T1 service for business class customers.

To ensure that the system is not overloaded at the Ryder Center, you will be given a password to access our service. You can sign up for this FREE service on the Exhibitor Agreement. If you have any questions, you can contact Diane Card, Show Manager, at (989) 964-0113. We look forward to being the wireless internet provider for the upcoming expo.
